Al Ain University excels in QS World University Rankings by Subject 2024

Al Ain University (AAU) has made progress in the QS World Rankings by Subject for the year 2024, which demonstrates the excellence of its academic programs and specializations.

AAU achieved the ranking (251 – 300) in Pharmacy and Pharmacology, (301 – 350) in Law, (301 – 350) in Accounting and Finance, (401 – 450) in Computer Science and Information Systems, (501 – 530) in Electrical and Electronic Engineering, and (501 – 550) in Business and Management Studies.

Dr. Noor El Deen Atatrah (Board of Trustees, Vice-Chairman), emphasized that these rankings underscore the academic reputation and diversity of the university's programs, addressing topics of strategic importance and supporting knowledge.

Prof. Ghaleb Al-Refae (University President) stated that the continuous improvement of the

university in ranking platforms, especially those focusing on academic specializations, ensures the university's commitment to providing quality education and its emphasis on scientific research, academic development, and innovation.

Dr. Nazih Khaddaj Mallat (Vice President of accreditation & Quality Assurance), also commented on the university's rankings, stating that these rankings are a testament to our university's ongoing commitment to academic excellence and quality assurance, and reflect our dedication to meeting international standards in education and research.
